PROJECTS

Smart Transit: College Live Bus Tracking and Management | 2024 - Present
ROLE – TEAM MEMBER

Building a web and mobile platform that uses GPS to track university buses in real time. Creating a system for administrators to manage bus schedules, student and staff details, and routes, reducing errors and manual work. Adding secure login with college email and fee receipt verification to ensure easy access for students and staff.

PERSONAL E-PORTFOLIO WEBSITE | 2023 - 2024
ROLE – TEAM LEAD

Developed a dynamic E-Portfolio website enabling professionals and students to showcase their skills and projects. Features include customizable layouts, a CV download option, and a real-time content update system.
